

HUB CONTRACTOR OUTREACH MEETING

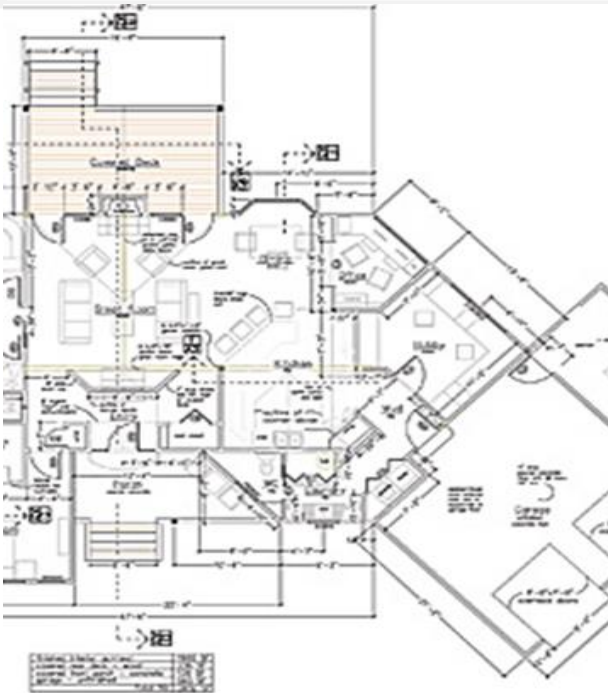

For contractors interested in construction opportunities on furnishing of labor, material and equipment entering into the construction of the **Sanford Equipment Shop** at 1502 South 7th Street, Sanford, North Carolina.

The project consists of the construction of a new 5,500 square feet Equipment Shop to an existing building. The existing building which is approximately 1,800 square feet will also have minimal renovation to the building and site. Bids will be received as a Single Prime Contract, combined bid for all work including General Plumbing, Mechanical, and Electrical.

The North Carolina Department of Transportation is hosting an outreach meeting for Certified Historically Underutilized Businesses (HUB) Contractors, interested in contracting/subcontracting opportunities on the New Equipment Shop. Staff from NCDOT Facilities Management and Division 8, will be on hand **prior to the Mandatory Pre-Bid Meeting** to discuss this project and other available opportunities.

Various work that will be essential on this project include, but not limited to general requirements, concrete, masonry, structural steel framing, metals, carpentry, thermal insulation, toilet/bath and laundry accessories, fire extinguishers, mechanical, electrical, site clearing, asphalt paving, rooftop storage shelving, fire suppression, furnishings, plumbing fixtures and equipment, HVAC, electrical materials and methods, specialties, earthwork, exterior improvements, utility, and electronic safety and security.

For more information, contact NCDOT Bonnie Tripp Simmons, CPM, Management Engineer II at 919.707.4549
